

Hi,I'm  
FullStackPhenom  
Why Choose me ?

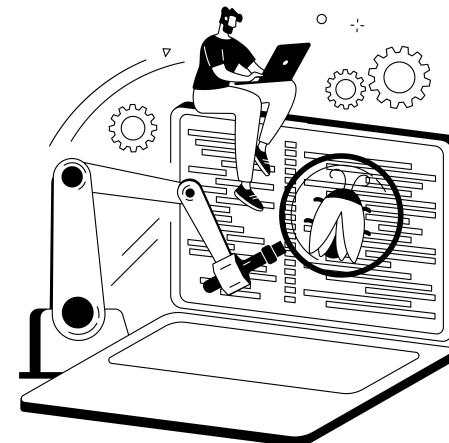

## About Me

I am Jemin Mathew, a post-graduate in MCA and a self-taught Python Django full-stack developer. I am currently expanding my expertise in the MERN stack. With over 10 completed personal projects using Python Django and 5 web projects showcasing my UI/UX skills, I possess a strong skill set in HTML, CSS, Bootstrap, SQL, MongoDB, JavaScript, Python, Django, and ReactJS. Additionally, I am constantly learning and improving my abilities in Angular, Node.js, Express.js, and TypeScript. My dedication to mastering cutting-edge technologies drives me to deliver innovative and top-notch solutions.

## Full Stack Phenom

MEAN [MongoDB, Express.js, Angular, Node.js] and Python-Django are two popular full-stack development stacks. With MEAN, I can build dynamic web applications using JavaScript across the entire stack, while Python-Django empowers me to create robust and scalable applications with a Python backend and Django framework. As a full-stack developer, I bring expertise in both MEAN and Python-Django, offering versatile solutions to tackle diverse web development challenges..
